

商品樣張

商品名稱	擠痘痘玩具
材質	玩偶(矽膠)、針頭(筒)(金屬/塑膠)
照片	 The image consists of two side-by-side black and white photographs. Both photographs show a close-up of a person's hand using a syringe-like tool to squeeze a pimple on their face. The tool has a long, thin needle and a plunger. The person's hand is visible, holding the tool and applying pressure to the pimple. The background is a textured, light-colored surface.
